

TITLE 7--AGRICULTURE

CHAPTER III--BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

ORDER MODIFYING ADMINISTRATIVE INSTRUCTIONS TO INSPECTORS
ON THE TREATMENT OF NURSERY PRODUCTS, FRUITS, VEGETABLES,
AND SOIL FOR THE JAPANESE BEETLE

Pursuant to the authority conferred upon the Chief of the Bureau of Entomology and Plant Quarantine by Sec. 301.48-6, Chapter III, Title 7, Code of Federal Regulations [regulation 6 of the rules and regulations (17th revision) supplemental to Notice of Quarantine No. 48 on account of the Japanese beetle, as amended], the paragraph reading "Period of treatment.--The soil must not be disturbed for 48 hours," under subsection (m) (1) of Sec. 301.48b [Circular B. E. P. Q. 499, issued June 9, 1939], is hereby deleted. The paragraph quoted above appears on page 15 of the mimeographed edition of said circular.

Results of further experience in treatment of plants in the field with carbon disulphide emulsion for compliance with the certification requirements of Sec. 301.48 [Notice of Quarantine No. 48] indicate that the existing requirement that soil must not be disturbed for 48 hours after treatment may be safely eliminated.

Done at Washington, D. C., this 19th day of September 1940.

AVERY S. HOYT,

Acting Chief, Bureau of Entomology and Plant Quarantine.
